BTECH III YEAR IST SEM

DWDM ASSIGNMENT – 1 QUESTIONS (FIRST 3 UNITS)

Note: Write the assignment in separate notebook & Submit on or before 23/09/2025

UNIT – I: Introduction to Data Mining

1. Define **Data Mining** and **Data Warehouse**. (*L1 – Remember*)
2. Explain the **classification of data mining systems** with examples. (*L2 – Understand*)
3. Illustrate the **KDD process** with a neat diagram and suitable examples. (*L3 – Apply*)
4. List and briefly explain any **three major issues in Data Mining**. (*L1 – Remember*)

UNIT – II: Data Preprocessing

1. Define **data preprocessing** and explain why it is needed. (*L1 – Remember*)
2. Normalize the data {200, 300, 400, 600, 1000} using **min-max normalization** with range (0,1). (*L3 – Apply*)
3. Explain the process of **data integration and transformation** with examples. (*L2 – Understand*)

UNIT – III: Data Warehouse & OLAP

1. Define a **Data Warehouse** and list its key characteristics. (*L1 – Remember*)
2. Differentiate between **Star Schema** and **Snowflake Schema**. (*L2 – Understand*)
3. Illustrate the **architecture of a data warehouse** with a neat diagram. (*L3 – Apply*)
4. List and explain different **types of OLAP servers**. (*L1 – Remember*)
